S. C. PUBLIC SERVICE COMMISSION
RECEIVED NOV 10 2008

Charles L. A. Terreni
Chief Clerk/Administrator
S.C. Public Service Commission
101 Executive Center One State 100
Columbia, S.C. 29210

Dear Mr. Terreni:

I will be giving the cross-examination of witnesses at the proceeding, Docket no. 2008-196-E and presenting my witnesses Dr. Ronald Wilder.

This testimony focuses on the experimental nature and economic uncertainties of S.C. E & G and Santee Cooper's plan for a nuclear facility.

It is difficult to estimate the amount of time needed to raise the questions necessary for addressing the inadequacies in the case presented in favor of the proposal being made by SCE&G. for the construction and operation of a new nuclear power plant. Perhaps it would take several hours.

Please provide copies of my letter to those on the service list. I have sent a copy to the Office of Regulatory Staff. Thank you for your assistance,

Sincerely,
Rich Thomas
